

bmx160/bmm150_defs.h

```
graph TD; A[bmx160/bmm150_defs.h] --> B[stdint.h]; A --> C[stddef.h];
```

The diagram illustrates a header file dependency. A top-level box labeled 'bmx160/bmm150_defs.h' has two arrows pointing downwards to two separate boxes labeled 'stdint.h' and 'stddef.h'. This indicates that the top-level header file includes both of these standard C headers.
